1 Spatial Concentration of American Poverty: Should We Care, and What Are the Options?	1
Why Society Should Care about Poverty	3
National Poverty and Economic Growth	5
Person- vs. Place-Based Policy	12
Overview of This Book	14
2 Recent Spatial Poverty Trends in America	21
Patterns and Trends in State Poverty	22
Patterns and Trends in County Poverty Rates	25
Demographic Patterns and Trends in County Poverty	27
County Patterns in Employment Growth	29
Conclusions	30
3 Regional Economic Performance and Poverty: What's the Theoretical Connection?	51
Interregional Equilibrium and Disequilibrium Perspectives on Poverty	52
Regionally Asymmetric Labor Demand Shocks and Poverty: The Role of Migration and Commuting	54
Labor Demand and Metropolitan Poverty: The Spatial Mismatch Hypothesis	59
Rural Labor Demand and Poverty	62
Poverty and Regional Labor Supply Shifts	64
Summary and Conclusions	66
4 An Empirical Analysis of State Poverty Trends: Welfare Reform vs. Economic Growth	69
Empirical Evidence at the National Level	70
State-Level Empirical Studies of Labor Demand and Poverty	74
Welfare Reform and Poverty	78
Empirical Model	81
Regression Results	87
Simulation of Individual Effects	98
Conclusion	102

5 State Economic Performance, Welfare Reform, and Poverty: Case Studies from Four States	109
Regression Sample Period Analysis	110
Case Study Epilogue: Post-2000 Trends	119
Conclusions	124
6 County Employment Growth and Poverty	127
Why Examine Counties or Metropolitan Areas?	128
Conceptual Model of County Poverty	130
Empirical Model of County Poverty Rates	133
Empirical Assessment of Local Poverty: Local Attributes	133
Employment Growth and Poverty	141
Neighboring County Spillovers	149
Poverty Responses across Key Demographic Groups	150
Summary of Overall County Findings	157
Conclusion	159
7 Poverty in Metropolitan America	165
Trends in 1989 and 1999 Metropolitan Area Poverty Rates	166
Poverty Rates by Metropolitan Size	172
Regression Analysis of MSA Poverty Rates	186
Suburban/Central County Poverty Rate Disparities	191
Case Studies of Metropolitan Poverty Trends	202
A Policy Framework to Alleviate Metropolitan Poverty	210
Conclusion	212
8 Poverty in Rural America	219
What Is Different about Rural or Nonmetropolitan Counties?	220
Characteristics of High and Low Poverty Rate Rural Counties	225
Changes in 1989–1999 Rural Poverty Rates	239
Rural Regression Findings	245
Rural Poverty and Proximity to Metro Areas	254
Case Study: Scotts Bluff County, Nebraska	259
Policy Implications for Fighting Rural Poverty	262
Summary	265
9 How to Win the Local Poverty War: Summary and Policy Recommendations	269
Synopsis	269
Policy Recommendations	272
Conclusion	284

Appendix A: Derivation of the County Poverty Rate Empirical Model	287
Simulating the Indirect Effects of Job Growth	292
The Role of Community Demographic Attributes	303
References	311
The Authors	343
Index	345
About the Institute	357

Figures

1.1 U.S. Family and Person Poverty Rates, 1959–2003 (%)	8
1.2 Female-Headed Family Poverty Rate, 1959–2003 (%)	9
1.3 Change in U.S. Poverty and Unemployment Rates, 1960–2003 (%)	9
2.1 1969 State Poverty Rates	40
2.2 1999 State Poverty Rates	40
2.3 1969–1999 State Poverty Rate Changes (%)	41
2.4 1989–1999 State Poverty Rate Changes (%)	41
2.5 1984–2000 Poverty Rate Changes vs. Average Poverty Rate	42
2.6 Changes to State Poverty Rates vs. Unemployment Rates, 1984–2000	43
2.7 Poverty in States Implementing TANF in 1996 vs. States Implementing TANF after 1996	43
2.8 United States Poverty Rates, 1979 (%)	44
2.9 United States Poverty Rates, 1989 (%)	45
2.10 United States Poverty Rates, 1999 (%)	46
2.11 Poverty Rate Change, 1989–1999 (%)	47
2.12 Poverty Rate Change, 1979–1999 (%)	48
2.13 Average Weighted County Poverty Rates, MSA and Non-MSA, 1989–1999 (%)	49
2.14 Average Weighted County Poverty Rates by Demographic Group, 1989–1999	49
2.15 Average Weighted County Employment Growth, 1985–1990 and 1995–2000 (%)	50
3.1 Illustration of Dynamic Labor Market Responses to a Labor Demand Shift	56

Tables

2.1	Summary Statistics, 1989 and 1999 County Poverty Rates (%)	34
2.2	Summary Statistics, 1989 and 1999 Metropolitan County Poverty Rates (%)	36
2.3	Summary Statistics, 1989 and 1999 Nonmetropolitan County Poverty Rates (%)	38
4.1	National Estimates of U.S. Unemployment and Poverty	71
4.2	Change in U.S. Overall Poverty Rate Regressions, 1960–2002	73
4.3	Previous Studies of Regional Poverty and Economic Performance	75
4.4	Variable Definitions and Data Sources	88
4.5	Descriptive Statistics of the 48 Contiguous States and the District of Columbia, 1984–2000 (%)	90
4.6	State Econometric Model Results (%)	92
4.7	Estimated Simulation Equations (%)	100
4.8	Simulated Total Effects (%)	102
5.1	State Case Study Statistics by Regression Sample Period (% change)	111
5.2	State Case Study Statistics for Postsample Period (% change)	119
6.1	Poverty Rate Regression Model for all Counties, 1989 and 1999	136
6.2	Poverty Rate Regression Results for Selected Subgroups, 1989	152
6.3	Poverty Rate Regression Results for Selected Subgroups, 1999	154
7.1	Highest and Lowest Metropolitan Area Poverty Rates, 1999	168
7.2	Highest and Lowest Metropolitan Area Poverty Rates, 1989	170
7.3	Highest and Lowest Poverty Rates for Large, Medium, and Small Metropolitan Areas, 1999	174
7.4	Highest and Lowest Poverty Rates for Large, Medium, and Small Metropolitan Areas, 1989	178
7.5	Change in Poverty Rates from 1990 to 2000 for Large, Medium, and Small Metropolitan Areas	182
7.6	MSA and Nonmetropolitan Poverty Rate Regression Results, 1989 and 1999	188
7.7	Summary Statistics for Metropolitan Counties, 1989/90 and 1999/2000	194
7.8	Suburban and Central County Poverty Rate Regression Results, 1989 and 1999	196

7.9	Alternative Metropolitan Labor Market Effects by Race and Ethnicity	201
8.1	Highest and Lowest Nonmetropolitan County Poverty Rates, 1999	226
8.2	Highest and Lowest Nonmetropolitan County Poverty Rates, 1989	228
8.3	Highest and Lowest Poverty Rates for Adjacent, Nonadjacent, and Small Nonadjacent Nonmetropolitan Counties, 1999	230
8.4	Highest and Lowest Poverty Rates for Adjacent, Nonadjacent, and Small Nonadjacent Nonmetropolitan Counties, 1989	234
8.5	Change in Poverty Rate from 1989 to 1999 for Adjacent, Nonadjacent, and Small Nonadjacent Nonmetropolitan Counties	240
8.6	Nonmetropolitan County Labor Market Summary Statistics, 1990 and 2000	246
8.7	MSA and Nonmetropolitan Poverty Rate Regression Results, 1989 and 1999	250
8.8	Adjacent and Nonadjacent Nonmetropolitan County Poverty Rate Regression Results, 1989 and 1999	256
A.1	Direct and Indirect Changes Due to Investment in Employment Growth (%)	293
A.2	County Regression Summary Statistics, 1990 and 2000	296
A.3	Employment-Population and Unemployment Rate Auxiliary Models	302
