SOURCES: Bureau of Labor Statistics, U.S. Department of Labor.

NOTES: Monthly data are shown above unadjusted for seasonal variations. Unadjusted CPI data are used extensively for escalation purposes. Although the CPI is often called the "Cost-of-Living Index," it measures only price change, which is just one of several important factors affecting living costs. All CPI series are linked historically to the original CPI Index for Urban Wage Earners and Clerical Workers. These series contain no revision but are reprinted for the convenience of the user.

PERCENT CHANGE: Movements of these indexes from one time period to another are usually expressed as percent changes rather than changes in index points.

Index point changes are affected by the level of the index in relation to its base period while percent changes are not. Examples of computations follow below:

$$\frac{100 \times (160.5 \text{ (1997 annual avg.)} - 156.9 \text{ (1996 annual avg.)})}{156.9 \text{ (1996 annual avg.)}} = 2.3 \% \text{ change 1996 to 1997, CPI-U}$$

$$\frac{100 \times (164.0 \text{ (November 1998)} - 161.5 \text{ (November 1997)})}{161.5 \text{ (November 1997)}} = 1.5 \% \text{ change November 1997 to November 1998, CPI-U}$$

$$\frac{100 \times (164.0 \text{ (November 1998)} - 164.0 \text{ (October 1998)})}{164.0 \text{ (October 1998)}} = \text{No change, CPI-U}$$

The BLS CPI "hot line" (Chicago) is (312) 353-1880 Menu option 2.

The BLS Regional Office (Chicago) is (312) 353-1880.

CPI analysis and reports are now available through BLS on their Automated Fax on Demand Service: Call (312) 353-1880 and press 1 for a list of options/reports available.
